

High Durability Stainless Steel Water Level Control Valve With Modulating Function

Our Product Introduction

for more products please visit us on watercontrol-valve.com

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: EN1074-5
- Model Number: A100, A10B
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Cases
- Delivery Time: 15-60 Days
- Payment Terms: L/C, T/T
- Supply Ability: Based On Order

Product Specification

- Material: Ductile Iron GJS500-7
- Pilot Material: SS304
- Standard: EN1074-5
- Function: Modulating
- Coating: EPOXY
- Diaphragm: Nylon Reinforcement With EPDM
- Highlight: float valve for water storage tank

Product Description

Durable Stainless Steel Float Control Valve Ductile Iron Body With Blue Epoxy Coated

How do we control the quality of machining

1. High-precision CNC lathe processing parts.
2. Advanced Milling Machines
3. UT Inspection to ensure welding quality
4. Weld Polishing
5. 100% Appearance & Size Inspection online (thickness, roundness, etc.)
6. Size & Appearance Shaping

A100 is a remote float control valve which consists of

1. Ductile iron main valve
2. Float control pilot-P100
3. Installed the complete valve set on the top of tank or main valve and pilot separate- remote control
4. On - off control set
5. When water level decrease the float drop , main valve open, water start to flow in
6. When float reaches high water level, close the main valve

A10B is a bi-level float control valve which consists of

1. Ductile iron main valve
2. Bi-level float control pilot-P10B
3. Installed full valve on the top of tank or main valve and pilot separate- remote control
4. On - off control set
5. Control water level in the tank
6. Valve open fully when float reaches the pre-set low water level-lower stop
7. Close when the float reaches the upper stop

About us:

Our company is specialist in design and production of high quality water valve, and has grown to become one of the leading manufacturers for fluid control valve. We design and manufacture a wide range of fluid valve, such as float control valve, trunnion ball valve, water pressure reducing valve, rotary airlock valve, sanitary butterfly valve, hydraulic check valve, sewage air release valve, etc. Our constant technical innovation combined with stringent quality control systems has enabled us to deliver high performance and outstanding value in industrial applications.
