Product Description

SuNPe provides a wide range of CNC services in both plastic and metal block material. In 2018, SuNPe started to set up the CNC machining workshop and developed year by year. SuNPe achieves the best tolerance of $\pm 0.01\text{MM}$ with 5axis CNC machines from Hass in the USA. SuNPe has built its reputation on providing high quality machined parts to its customers. From its modest beginning to its current facility, SuNPe has always made quality its number one priority. From small components to large assemblies, this dedication to quality shows in everything we produce.
